BUILDING SIGNAGE AND LIGHTING

BUILDING SIGNAGE AND LIGHTING GOALS

Create visual cues for pedestrians.

Complement the character of nearby buildings and the street.

Add human scale to the environment.

Enhance pedestrian safety and comfort.

В

BUILD	ING SIGNAGE AND LIGHTING IMPLEMENTATION STRATEGY CHECKLIST	 Industrial	Public Spaces	Open Spaces	Residential
1	Include signage at a height and of a size that is visible to pedestrians, assists in identifying the structure and its use, and facilitates access to the building entrance.				
2	Provide adequate lighting levels to safely light the pedestrian path.				
3	Utilize adequate, uniform, and glare-free lighting to avoid uneven light distribution, harsh shadows, and light spillage.				
4	Use fixtures that are "dark sky" compliant.				

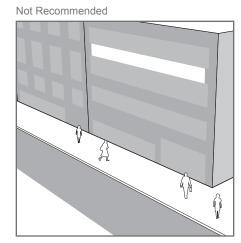

BUILDING SIGNAGE AND LIGHTING

Include signage at a height and of a size that is visible to pedestrians, assists in identifying the structure and its use, and facilitates access to the building entrance.

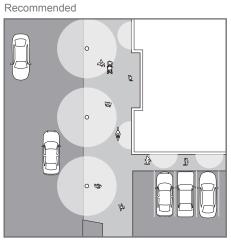

Recommended
